## ANTI-JAP LAW NOW IN EFFECT.

### Initiative Act Prohibits Alien Land Ownership.

### All Treaty Rights Are Safeguarded in Measure.

### Severe Penalties Provided for Any Violations.

(BY A. P. NIGHT WIRE.)  
SACRAMENTO, Dec. 9.—California's new and more drastic anti-alien land law, an initiative act approved at the general election last month, became effective today. It withdraws the three-year agricultural land leasing privilege from aliens ineligible to citizenship and seeks to close loopholes in the original law of 1913 through which, it is said, Japanese continue to gain control of California farm land. Specifically it provides that no alien ineligible to citizenship nor any organization controlled by such aliens may act as guardian of a minor who, because of birth in this country, may legally acquire agricultural land.

The controversy over the measure brought forth opposing interpretations of the treaty between the United States and Japan. The act provides that any alien ineligible to citizenship may acquire, use, transmit and inherit real property only as prescribed by treaty, and not otherwise. Opponents of the law contended that the provision of the treaty with Japan permitting Japanese in this country to "own or hire and occupy" lands for residential and commercial purposes must be interpreted to include agricultural lands.

**TREATY INTENT.**  
"The treaty is intended," said the formal argument against the bill on the ballot, "to give the Japanese privilege to enter upon complete commerce and therefore protect their right to lease land for production."

This view was directly contrary to that of the supporters of the measure. V. S. McClatchy in the formal argument for the new act wrote:

"Treaty rights are fully safeguarded and citizenship of native-born is not affected. All Japanese legitimately here may remain indefinitely in any occupation selected by them, and will be protected in all property rights acquired. As agricultural laborers in California they could earn much more than in any occupation in their own land. The birth rate will insure increase rather than decrease of the Japanese in this State."

The argument further pointed out that in this measure California was seeking only to give to her citizens the same protection afforded by law to Japan to the citizens of that country.

Among the new sections added to the 1913 act by the new law are these:

"Hereafter all aliens, other than those specified in section one hereof (those eligible to citizenship), may become members of or acquire shares of stock in any company, association or corporation that is or may be authorized to acquire, possess, enjoy or convey agricultural land, in the manner and to the extent and for the purpose prescribed by any treaty now existing between the government of the United States and the nation or country of which such alien is a citizen or subject, and not otherwise."

"Hereafter no alien mentioned in section two hereof (ineligible to citizenship) and no company, association, or company mentioned in section three hereof (controlled by ineligible aliens) shall be permitted to acquire, possess, enjoy or convey agricultural land, in the manner and to the extent and for the purpose prescribed by any treaty now existing between the government of the United States and the nation or country of which such alien is a citizen or subject, and not otherwise."

Violation of the provisions of the law referring to citizenship is made a misdemeanor and shall be punished by a fine not exceeding \$1000 or by imprisonment in the County Jail not exceeding one year, or by both such fine and imprisonment.

Conspiracy to effect a transfer of real property in violation of the provisions of the law is made punishable by imprisonment in the County Jail or State penitentiary not exceeding two years, or by a fine not exceeding \$500 or both.

The act does not affect pending actions or proceedings.

**JAPAN ISSUE IS DISCUSSED.**  
(Continued from First Page.)  
"No objection has ever been made to the admission into this country of Japanese professional men, of Japanese financiers, of Japanese religious teachers, or leaders or bona-fide Japanese merchants, or Japanese students or Japanese travelers. The sole objection is to the laboring class."

"Whether the undesirable farmer laborers, skilled mechanics or unskilled coolies, I contend that the objection is purely an economic one."

Japan herself is doing to the laborers of China and Korea what she claims is racial hate or prejudice when done by us to Japanese laborers."

Representative Kahn called attention to newspaper dispatches quoting Count Okuma, head of the Japanese Peace Society, as having said that if the United States restricted Japanese immigration by statute instead of by voluntary action of Japan, the latter, rather than "utter such prejudice to her prestige, must resort to force."

"Surely," Mr. Kahn said, "the head of the peace society of Japan does not advocate the taking up of arms against the United States as indicated in the newspaper articles." From his reading of Japanese history, Representative Kahn said, he was sometimes inclined to believe that "there are many more political agitators and demagogues on the other side of the Pacific than we can possibly find in our own country."

**AMERICANS LEVEL.**  
"Happily," he continued, "we Americans are not worked into a frenzy of excitement by purely political happenings."

Mr. Kahn recalled the recent incident at Tientsin, where American soldiers had been found in the Japanese police station by the American Consul. This incident, he declared, was in a fair way of amicable adjustment between the governments, adding:

"The American people have never been excited over the affair. You hear no threat of war on the part of the American statesmen, politicians or even demagogues." Publicists and authors reported, the California representative said, that Japan "was making effort to unite the yellow races, that Japan under such a program hopes and expects to be the leader of such a race amalgamation; that she is striving in every way to acquire and maintain the hegemony of the yellow nations."

"Are the Japanese trying to bring about the world-old conflict between the white races and the yellow and the brown races?" he asked. "I sincerely hope not. But it is a question which the statesmen of all liberty-loving democratic nations and peoples will do well to study and bear constantly in mind."

## Japanese Lose First Round in Escheat Suit.

(BY A. P. NIGHT WIRE.)  
VIRALIA, Dec. 9.—Demurrers made by two Japanese in suits filed against them by the State of California to escheat land to the State because of alleged evasion of the anti-alien land law, through trusteeship for their minor children, were denied today by Superior Judge Wallace and Allen, sitting on banc.

The Japanese asked that the court appoint receivers but the court held that the property was managed competently.

The property involved in the charge against H. Sumida is valued at \$100,000, while that in the K. Sumida charge is considered worth \$30,000.

**UPHOLDS RAIL COMMISSION.**  
(Continued from First Page.)  
The Southern Pacific and the Santa Fe to continue the joint use of the Oakland mole after the Southern Pacific had ordered its rival company to vacate.

This order the Southern Pacific announced it would refuse to obey on the ground that the commission lacked jurisdiction.

Back of the whole controversy is the determination of the State commission to establish the limits of its power as modified by the recent Transportation Act which enlarged powers to the Interstate Commerce Commission.

And upon the final determination of the controversy depends to a large extent the future activities of the State regulatory body, according to attorneys.

In its petition for the injunction the State commission recites that public convenience and necessity require the continued joint use of the terminal.

It is further set forth that the expense of operating ferry boats to Richmond and the maintenance of separate stations in Oakland and Berkeley by the Santa Fe, adds \$25,000 a year to the transportation expense of the traveling public, which, if saved, "could and would be reflected in lower passenger rates."

The order of the commission has divided the east bay district into two hostile camps. The city of Oakland is fighting to retain the Santa Fe at Oakland mole and the city of Richmond is fighting to retain its transcontinental railroad terminal.

To this end the city of Richmond had announced that on January 3, when the emergency franchise granting the Santa Fe permission to connect with the Southern Pacific tracks at Twenty-third avenue expires, it will defy the commission order and tear up the tracks.

**MEXICO OFFERS TO RECOMPENSE ROADS.**  
(BY A. P. NIGHT WIRE.)  
NEW YORK, Dec. 9.—The Mexican Government Railway Association has advanced a proposal to pay American railroads \$200,000 for cars and other rail equipment destroyed by revolutionists during the past four years. Julius Kruttschnitt, chairman of the board of directors of the Southern Pacific Railroad, stated here tonight.

The Southern Pacific system, which skirts the Mexican border, was the chief sufferer from car losses and destruction by the revolutionists. Mr. Kruttschnitt declared.

## MRS. HAMON TO SURRENDER Suspect in Murder Case Will Give Self Up to Authorities, Latest Report.

(BY A. P. NIGHT WIRE.)  
FORT WORTH (Tex.) Dec. 9.—Chas. Barton Smith, for whom Oklahoma authorities are searching in connection with the death of Jake L. Hamon, Oklahoma millionaire oil operator, is on her way tonight to some interior city in Texas, where she will confer with attorneys preparatory to surrendering on face charges against her, according to what was believed to be authentic information received here tonight.

According to the information, she had not been arrested late this afternoon. She had crossed the border.

**CANNOT BE EXTRADITED.**  
(BY A. P. NIGHT WIRE.)  
EL PASO (Tex.) Dec. 9.—That Clara Smith Hamon cannot be extradited from Mexico, even if found in Juarez, was the opinion given Sheriff Seth B. Orndorff today by the United States District Attorney's office here. It is held that as the United States has not recognized the extradition treaty in effect, the extradition treaty is not in effect.

"No trace has been found of the missing woman, Sheriff Orndorff said, but he believed that she was in the United States in the belief that the woman might try to leave the city by automobile. Trains are also watched and deputies are watching for her."

A warrant was issued here today by Sheriff Orndorff, charging the woman with being a fugitive from justice.

**DEMANDS ARREST.**  
(BY A. P. NIGHT WIRE.)  
ARMORE (Okla.) Dec. 9.—Russell R. Brown, County Attorney of Carter county, today telegraphed what he termed an "instant demand" for action by Sheriff Orndorff, Sheriff at El Paso, Tex., who is reported to have said that he is waiting for the whereabouts of Clara Barton Smith, charged with the murder of Jake L. Hamon, millionaire oil operator and oil man.

Mr. Brown announced he had sent the following message to the Texas Sheriff after having dispatched the demand for action by Sheriff Orndorff, Sheriff at El Paso, Tex., who is reported to have said that he is waiting for the whereabouts of Clara Barton Smith, charged with the murder of Jake L. Hamon, millionaire oil operator and oil man.

**DENIES WIFE'S STORY.**  
(BY A. P. NIGHT WIRE.)  
DIXON, Dec. 9.—When maintaining silence as to the exact reason why he married Clara Smith Hamon, Frank W. Hamon, neighbor of Jake L. Hamon, Republican national committeeman from Oklahoma, today told a staff correspondent of the Sacramento Bee that his marriage to Clara Smith Hamon was not a love match.

"The \$100 a month was paid me by my uncle as salary after I gave up a position as superintendent in one of his oil fields out of Ardmore, Okla., due to lung trouble, and went to Arizona," he declared. "I was getting this monthly allowance from my uncle long before I married Clara Smith."

Frank Hamon asserted his uncle and aunt were on good terms, and that Jake Hamon had visited his uncle in Chicago upon several occasions. Belief that his uncle told the truth in his dying statement to the effect that he accidentally shot himself with a revolver, was expressed by Frank Hamon, who declared the accusations against Clara Smith were the result of a political plot.

## ARMENIA SIGNS PACT WITH TURK

(Continued from First Page.)  
Armenian situation, in which President Wilson has agreed to act as mediator for the League of Nations, shows Armenia's helplessness under pressure from the north and south by the Russian Bolsheviks and the Turkish Nationalists under Kemal Paasha, officials of the Near East Relief declared tonight.

Col. William N. Haskell, for more than a year after the European war the joint high commissioner in Armenia, said that the situation was complicated and that the President must consider.

Squeezed from both sides, Armenia has been forced to negotiate with both Bolsheviks and Turks as matters of expediency, and not as matters of choice, they said. As recently as six months ago, high Armenian officials discussed with Col. Haskell the advisability of setting up a soviet form of government, which they did not want, merely to appease the Russians pressing upon Armenia from the north.

"They have been compelled to deal with the Turks likewise to prevent enemies from the north and south. Turks and Russians have been negotiating with each other for an alliance against 'outside' forces."

Armenia has a government in form, including a President, a Prime Minister, a ministry and an army of some 17,500 men, all of which is unable to function, and has been waiting for Allied assistance. The President is at Geneva, Switzerland, the Prime Minister is at Constantinople, and the ministry are at Erivan, controlled in action and virtually controlled by the Bolsheviks and Turks.

Negotiations with the Bolsheviks have been going on for months concerning Armenian concessions to the Russians, but although numerous cable messages from Moscow have told of the taking of Erivan by soviet forces, belief is that the city never has been taken by force of arms. Soviet forces could take Erivan at any time, Col. Haskell said. Dr. Barton asserted, but there is nothing left there worth capturing.

**Army to Occupy Hospital.**  
PRESCOTT (Ariz.) Dec. 9.—Reports have come that, on the first of the year, the army will take back the Whipple Barracks Hospital, now operated by the Public Health Service.

BERLIN, Dec. 9.—The news that Great Britain had decided to send a mission to the German government, and that the German government was being made to pay German Emperor.

Recent Berlin dispatches had received from Germany 100,000,000 marks since the German government had decided to send a mission to the German Emperor.

DALLAS (Tex.) Dec. 9.—The Dallas War Finance Committee was informed in a resolution and forwarded to Congress the executive committee of Chamber of Commerce.

**FEARS FOR FLAG.**  
(BY A. P. NIGHT WIRE.)  
SAN DIEGO, Dec. 9.—Maj. H. D. Gerard, British Vice-Consul here, announced today that he had learned of threats made to haul down the British flag in the office in downtown building. In a letter to a local newspaper, Maj. Gerard wrote:

"It has been brought to my notice that threats have been made to haul down my consular flag. I beg, therefore, that you will kindly place a notice in your valuable paper that, under the treaty between the governments of the United States and Great Britain, consular flags are inviolable and that in which British consulates are located by doing this favor, serious trouble will be avoided."

**TELLS OF 'CONSPIRACY.'**  
Miss MacSwiney gave an account of what she characterized as conspiracy between officials of British Prison and the British Home Office, to defeat plans of the family to free the Lord Mayor's body back to Cork, because, she said, "The British feared an uprising and they didn't want any more trouble than they already had."

"We Irish are no domestic problem of England's," she said. "We are an international problem. Our ideals, the ideals of all Irish Republicans, are the same, namely, to the American people is that you at least give fair play and justice to us for the British stories of the separatist movement do not carry all the facts. We are not divided and we insist that the whole world shall know the truth, both of our cause and the misrepresentations of the British."

The commission tomorrow will hear several members of the Royal Irish Constabulary.

**COMMITTEE INSISTENT.**  
Hope that the decision of the British government not to permit the special committee of Americans to visit the Irish territory to obtain information about conditions in Ireland is not final, is expressed in a letter sent today to the British embassy by Miss Mary MacSwiney, sister of the late Lord Mayor, recalled to add details to the story she told the commission yesterday, added to the declaration of her sister-in-law the assertion that the winter would be "Irish's Valley Forge" and appealed for American aid, not, she said, for the men and women of Ireland, but for the children.

**MUST HAVE HELP.**  
"The winter in Ireland," said Miss MacSwiney, "will be hard. The British have destroyed our crops, our supplies of food. The men can get on; the women can stand the suffering; but it is for the children I plead. We must have help this winter."

The widow of the Lord Mayor of Cork declared there was no choice for the Irish Republicans but to stand together, whatever the cost, and continue the fight for independence. She said it was such a spirit that had actuated her husband to refuse food until death.

"I knew my husband was happy as his physical strength was worn away by hunger, for his countenance absolutely radiated peace and contentment," Mrs. MacSwiney asserted. "I was brought to plead with him to take food. But I would not, for I never, never would interfere with my husband in a matter of conscience. It was his choice. It was the decision of his spirit."

**MOVEMENT HELPED.**  
Miss MacSwiney expressed the belief that the fatal hunger strike of her brother had greatly benefited the Irish independence movement. She told of the series of telegrams that had exchanged with Premier Lloyd George in an attempt to free the British government from the sentence and for the treatment he and his relatives had been accorded by the British government.

"The result of this exchange of telegrams," she added, "made me feel that Lloyd George was responsible before God and man for the death of my brother. I shall continue to feel that way and I shall continue to spread the truth of that situation throughout all of Ireland."

She told of the series of telegrams that had exchanged with Premier Lloyd George in an attempt to free the British government from the sentence and for the treatment he and his relatives had been accorded by the British government.

"The result of this exchange of telegrams," she added, "made me feel that Lloyd George was responsible before God and man for the death of my brother. I shall continue to feel that way and I shall continue to spread the truth of that situation throughout all of Ireland."

**TELLS OF 'CONSPIRACY.'**  
Miss MacSwiney gave an account of what she characterized as conspiracy between officials of British Prison and the British Home Office, to defeat plans of the family to free the Lord Mayor's body back to Cork, because, she said, "The British feared an uprising and they didn't want any more trouble than they already had."

## REMOVE SHIP'S RUINED CARGO.

San Diego Fire Fighters at  
Dock if Blaze Flares.

Flames in Hold Almost Made  
Crew Take to Boats.

Only Wires and Metal Saved  
from Piano Shipment.

(EXCLUSIVE DISPATCH.)  
SAN DIEGO, Dec. 9.—While firemen from the city fire department stand by to watch for any flare-up of the flames in the hold of the steamer Sudbury, which came into the port for aid last night when on fire, longshoremen are removing the burnt and damaged cargo from the ship. Pianos, of which only the twisted and discolored strings were left in the charred shells of cases, hundreds of twisted garden rakes and implements, sewing machines and cases of glycerine and medicines and paints were removed from the lower hold of the vessel and placed in the municipal store house on the municipal pier.

After a battle with the flames since Tuesday night, the Sudbury put into port here last night and the city fire tug William Kettner and the city fire force fought the blaze. Capt. Walter O'Brien and his crew were on the verge of collapse last night from the strain of fighting fire and from the noxious gases in the hold.

HAD LIFEBOATS READY.  
At one time all preparations were made to take to the lifeboats, which were swung out and provisioned. Then by desperate efforts the men again checked the flames and after sending a wireless to this port for aid, the ship came limping into port.

On Point Loma the city fire tug, carrying Fire Chief Almgren and Capt. P. L. Johnson, port pilot, met the vessel and the two men were taken on board.

When the Sudbury tied up at the municipal pier, city firemen operating oxy-acetylene torches quickly bored a hole in the plates of the ship and combated the flames with chemicals. Streams of water from the fire tug were also turned into the ship.

The Sudbury is a steel steamer of the United American Line. The agent is the Williams-Diamond Company of San Francisco.

The vessel carried 3500 tons of general cargo, besides the chemicals, oils and paints in the amidships hold. About 400 tons of freight were in the third hatch of the lower hold, where the fire was confined.

Damage to vessel and cargo is unofficially estimated at \$750,000. The cargo was valued at \$2,235,000. The vessel is worth \$1,800,000. The cargo consigned to Los Angeles was not damaged, according to the marine surveyors.

FLAME FRUSTRATION FOR FIRE.  
The fire is thought to have been started by friction in the hold during rough weather Monday and Tuesday.

The ship will probably remain here for several days, until all danger

of smoldering flames is over and the cargo is taken care of.  
C. H. Robinson of Pillsbury & Curtis, Shipping Board Marine Surveyors, is here to make a survey for the United American Steamship Company. John McLaurin, customs house attorney for the United American Steamship Company, F. S. Mills, Los Angeles agent for the company, and Walter S. McPherson of McCormack & McPherson, agents for the United American Line in Los Angeles, hurried here early this morning to arrange for payment of insurance on the damaged cargo, and G. T. Beckert of San Francisco is here representing the insurance company.

The Sudbury left New York for San Francisco November 12.

RELATES DISPOSING  
STOLEN SECURITIES.

WITNESS IN NICKY ARNSTEIN  
TRIAL TELLS OF TRIPS  
WITH DEFENDANTS.

(BY A. P. NIGHT WIRE.)  
WASHINGTON, Dec. 9.—Continuing his testimony in the trial of Julius W. ("Nicky") Arnstein and others charged with conspiring to bring stolen securities into the District of Columbia, Joseph Gluck, former bank messenger in New York, today testified of visits he made to Boston, Philadelphia and Baltimore to dispose of blocks of securities obtained by him from Wall street runaways. Nick Cohn, the missing defendant, went with him, Gluck said, and they met Arnstein at their destination in each case.

The witness said that Arnstein was introduced to him as a man who had outlets for stolen securities all over the United States and in Canada. The possibility of a trip to Europe to dispose of large quantities of the stolen papers was suggested at one time, according to Gluck.

On cross-examination, the defense brought out that Gluck had participated in several similar transactions before he had met any of the defendants in the present case.

Gluck testified that he was promised a flat payment of 8 per cent of the market value of the securities turned over by him and said he received, in all, \$2500 from the lot brought to Washington on October 14.

# LIFE INSURANCE FIGURES GREAT.

Amounts Taken by People of Country Staggering.

Presidents of Companies Are Meeting in East.

Angeleno Presents Interesting Statistics.

NEW YORK, Dec. 9.—Life insurance executives from nearly every State attended the opening today of the fourteenth annual convention of the Association of Life Insurance Presidents.

Chairman Fred A. Howland of Montpelier, Vt., said the volume of life insurance in force in American companies far exceeds that in all other companies of all countries.

Substantial reduction of taxes is not possible in the near future, Representative Longworth of Ohio, a member of the House Ways and Means Committee, which frames revenue measures, declared in addressing the meeting.

"Our immediate problem," Mr. Longworth said, "is the revision and modification and simplification of the present law, and the substitution of fair and proper taxes for the present taxes, which, to my mind, are in many respects unfair and improper."

He predicted Congress would slice \$1,000,000,000 from executive department estimates of more than \$4,000,000,000. The excess profits tax was described by the speaker as "essentially a tax on brains and ability and efficiency of management," which ought to be repealed.

Only two substitutes, Mr. Longworth said, were under committee discussion, a sales tax, or a tax on the undistributed profits of corporations. "It is proposed," Mr. Longworth said, "to impose a tax of about 25 per cent on the difference between what a corporation actually earns and what it distributes to its stockholders."

HUGE SUM TOTAL.

Despite the fact that the people of the United States have entered upon a period of retrenchment, they are buying more than \$10,000,000,000 of new life insurance this year, according to original statistics presented today. This sum, it was stated, is 21 per cent more than the amount bought in 1919, which in turn was 82 per cent more than that purchased in 1918, the previous record year. The total insurance in force on all American lives nine-

# ASKS HELP FOR STARVING CHINA

President Wilson Issues an Appeal to People.

Millions Facing Death in the Stricken Provinces.

Nation-Wide Committee Is Named to Collect Funds.

WASHINGTON, Dec. 9.—The American people were asked today by President Wilson to "respond to their call" to the "appealing cry for help" from famine-stricken China.

At the same time Mr. Wilson announced the appointment of a committee of 120 men and women in all parts of the country to collect the funds for the relief of the Chinese famine.

"Our diplomatic and consular agencies in China inform us," said the President, "that the loss resulting from death in distressing form may run into millions of souls."

"The famine followed a year of virtually complete drought after three or four years of gradually falling crops. In large areas the crop this year did not run more than 1 per cent of normal, falling to return the seed planted. In a few districts, they were about one-third normal."

INDEPENDENCE OF FIUME GUARANTEED.

ITALY WILL NOT OUST D'ANNUNZIO.

ROME, Dec. 9.—Capture of steamers like the *Cogne* has given rise to hostile feeling toward Italy, declared Premier Giolitti today as he declared that Italy would not oust D'Annunzio from Fiume.

CREWS ATTACK OFFICERS.

LONDON, Dec. 9.—Officers of the Italian submarine *Chasno* No. 68 were treacherously attacked, bound and gagged by their crew and then placed in a boat which took them into the harbor of Fiume, says a Milan dispatch to the London Times.

CORPORATION PLANS TO FINANCE EXPORTS.

BANKERS AND BUSINESS MEN BACK OF MOVEMENT TO DEVELOP FOREIGN TRADE.

CHICAGO, Dec. 9.—Decision as to organization of a \$100,000,000 corporation to finance American export trade will be taken at a meeting tomorrow and Saturday of more than 150 bankers, business men and producers from all parts of the country.

It is expected that gradually the debt of the corporation will be used to the extent of \$1,000,000,000, he added.

"Organization of this corporation," he continued, "will represent the first definite step taken uniformly by the large financial and industrial interests of the country to aid in the extension and maintenance of our foreign trade."

# WITNESS AT TRIAL DECLARES DEFENDANT TOLD HIM MRS. WARBURTON WAS 'FIXED.'

SAN FRANCISCO, Dec. 9.—Liquor traffic plans of Harry Brodski were safeguarded today by "fixing up" Lorin Handley, former prohibition enforcement director of California, and Mrs. Glad K. Warburton, his successor, according to today's testimony in the trial of Brodski, Douglas Newton and Jules Gammage on charges of conspiracy to violate the prohibition law.

"You're a bird," was the remark of Fred Anderson of Reno made when Brodski told him Handley and Mrs. Warburton had been "fixed up," Anderson testified today in describing Brodski's work in securing with drawings of whiskey from bonded warehouses for him.

When Handley was killed in the overturning of an automobile near Lodi in September, a "little black book" was secured from his effects by Brodski through an emissary, and the contents destroyed, Anderson said. Brodski gave him the cover and told him to throw it in the bay, he added, but he knew nothing of the purpose of the book, except that it bore names and numbers on the inside of the covers.

Anderson also told, under cross examination by the defense, of mining schemes in which he was interested with Brodski. On redirect examination by the government he said that Hugo K. Asher, Brodski's chief counsel in the present case, was to be president of one of the proposed companies.

Alex Davidson, a former liquor dealer, who described yesterday a proposal by Harry Brodski to secure withdrawals of whiskey for a payment of \$12,000, in which Asher was to hold the money until the whiskey was delivered, admitted today under questioning by the defense that he had paid a \$10,000 fine in Portland, Or., for violation of the prohibition law.

SHOP FORCE IS CUT DOWN.

PRESCOTT (Ariz.), Dec. 9.—A deep cut has been made in the retailing force of the Santa Fe shops in Prescott, said to be temporary, as new equipment is being received by the motive power department, and plans are afoot for extensive improvement of the line from Ash Fork to Phoenix.

WORTHY ATTENTION.

"The case of China I regard as especially worthy of the attention of our citizens. To an unusual degree the Chinese people look to us for counsel and for effective friendship."

# OFFICER SHORTAGE IN NAVY IS SERIOUS.

CHIEF OF BUREAU OF NAVIGATION DECLARES PERSONNEL SHOULD BE AUGMENTED.

WASHINGTON, Dec. 9.—Declaring that the officer personnel of the Navy should be augmented to full strength and placed on a permanent basis "with the least possible delay," Rear-Admiral Thomas Washington, chief of the Bureau of Navigation, in his annual report to Secretary Denais today, describes the personnel situation as the most serious problem before the Navy.

Even though 1200 reserve and temporary officers are taken into the regular establishment as permitted by law during the coming year, the shortage of officers May 1, 1921, will be equal to seven years' output of the Naval Academy, Admiral Washington declares.

From present indications, and unless remedial legislation is obtained, the temporary appointments of seven rear-admirals, six-seven captains, 154 commanders, and 330 lieutenant-commanders will have to be revoked July 1, 1921, due to shortage of officers in the lower grades, the report says.

More attention must be paid to the personnel side of the conduct of the Navy, Admiral Washington says, asserting that "this point of view does not now prevail."

CHAMBER SPECTATOR FIRES THREE SHOTS.

BRUSSELS, Dec. 9.—Three shots from a revolver were fired in the direction of the President's tribune, in the Chamber of Deputies by a spectator in the public gallery just as the chamber was adjourning last night.

Old Convict Chooses Prison Instead of Poorhouse.

Forges Check to Spend Last Days Behind Bars.

Relatives Wealthy, but He Refuses to Seek Aid.

(EXCLUSIVE DISPATCH.)

PORTLAND (Or.) Dec. 9.—Choosing prison in preference to the poorhouse, James Coplen, a sixty-year-old convict, forged a check at Portland, came to Portland and surrendered to Sheriff Harburt with the plea that he be sent as soon as possible to the Salem penitentiary.

Coplen's independence was indicated when it became known that his brother, J. D. Coplen, is owner of the Inspiration mine at Globe, Ariz., with residence headquarters in Los Angeles. A nephew, J. B. Coplen, is associated with the brother. Although both relatives are reputed to be wealthy, Coplen has refused to accept bounty of any sort from them, preferring to fight his own battles. That he has failed has left no light upon the old man, who is eschew of pleading personality, despite several terms spent in various prisons.

"I'm old and can't work. I've been away so long that a prison is the only home I know. I'd rather end my days there than in a poorhouse. Fix it up so they send me up as soon as possible," he said.

TRAGIC EXAMPLE. Coplen, a broken down old man, 64 years of age, is a tragic example of the truth of the adage that crime does not pay. He has spent thirty years of the sixty-three years of his life behind prison walls. He has become so used to the routine of penitentiary life that he does not feel normal when at liberty. He has no trade. Long terms of confinement have broken his health to such an extent that he cannot earn a living by common labor.

Coplen admits that he has served time in Colorado, Boise, Walla Walla and San Quentin. He has tried to work recently, but found he was unable to hold a job. So he cashed a check for \$25 at Portland and came to Portland.

"The detectives are after me and I know they would get me," he told the Sheriff. "I want to surrender and spend the rest of my life in the Oregon penitentiary."

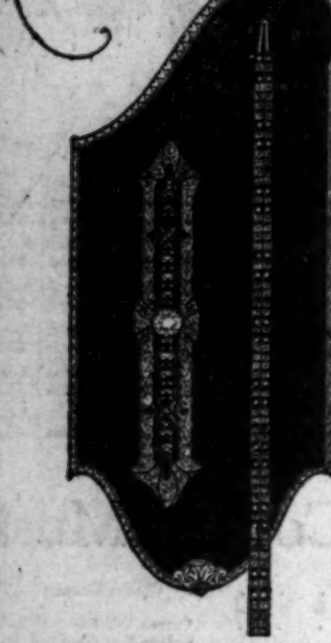

## BOUNDS IN TRIBUTE TO DEAD HUNT MASTER

(BY CABLE AND ASSOCIATED PRESS.)

WHADDON (Eng.) Dec. 9.—Twenty-one pairs of hounds filed solemnly past the grave at the funeral of William Selby Whaddon, a well-known English country squire of the old school, who had been master of the Whaddon hounds for twenty-five years.

The village churchyard overlooked the famous Whaddon Chase. After the burial service, the members of the hunt led the famous Whaddon chase pack past the flower-lined grave.

## The House of Perfect Diamonds

Diamond and platinum bar pin and flexible bracelet, sketched from the Brock and Company display.

THIS Christmas-tide the glittering display cases and big vaults at Brock and Company are overflowing with the largest collection of diamonds and diamond and platinum jewelry that it has ever been our privilege to display.

The lover of gems fairly revels in the sparkling, glorious beauty of this showing. Wonderful solitaires, pendants, diamond and platinum rings and wrist watches, pendant watches, earrings, brooches, circlets—a gorgeous riot of flashing color.

All the colors of Nature combine in these perfect gem diamonds, her choicest offering—glittering shafts of blue, cold as frozen Northern Lights; golden beams of topaz, warm as the Tropic sun; brilliant greens and softly glowing purples that remind one of distant sunlit hills.

To the purchaser, even though he be a connoisseur, it is satisfying to know that every diamond shown by Brock and Company is a perfect stone.

## SUPREME COURT HEARS BERGER'S ARGUMENTS.

SOCIALIST CONVICTED UNDER ESPIONAGE ACT WOULD ESCAPE PENALTY.

(BY A. P. NIGHT WIRE.)

WASHINGTON, Dec. 9.—Arguments were heard by the Supreme Court today on the appeal of Victor Berger, editor of the Milwaukee Leader and twice elected to Congress from Wisconsin on the Socialist ticket, from his conviction under the Espionage Act.

Counsel for Berger also presented to the court briefs and arguments in support of their petition that the entire case be dismissed and prosecution abated on the ground that Federal Judge Landis, who presided at the trial was prejudiced against Socialism.

The appeal in behalf of Berger was based on the contention that the war with Germany had been formally and legally terminated with the passage by Congress of the joint peace resolution—later vetoed by President Wilson—and that the Espionage Act was repealed through the same enactment.

The arguments will be continued tomorrow.

## CITIES CONFRONTED BY THE BOY PROBLEM.

SERIOUS SITUATION CAUSED BY JOBLESS YOUTHS OF CLARENS WORKER.

(EXCLUSIVE DISPATCH.)

CHICAGO, Dec. 8.—The most important problem that confronts Chicago and other large cities of the country today is the plight of 26,000 boys dependent upon themselves for their living and who are now jobless according to Jack Robbins, head of the Boys Brotherhood Republic.

"Within the last two months more than 20,000 boys have been laid off and men of greater capacity for work put in their places at the same wages," Mr. Robbins declared. "All these boys began to work during the war period, receiving from \$14 to \$25 a week and learned to live accordingly. Now they must take jobs paying only \$10 to \$12 a week or go without pay."

These boys range from 14 to 19 years of age and they cannot help feeling resentful about having their pay cut practically in half while they continue to do the same work. The situation must be handled before serious harm is done. If allowed to develop another month it will assume a character truly vicious and will have passed from the corrective to the punitive stage."

## MILWAUKEE TENANTS ECONOMIZE IN SPACE.

(EXCLUSIVE DISPATCH.)

MILWAUKEE, Dec. 9.—House for rent signs are reappearing in Milwaukee, but not because the shortage of houses is diminishing.

"During the war, when everyone was making high wages, many families moved into better quarters," said J. W. Ditch, president of the Milwaukee Real Estate Board. "With the drop in wages, people are moving back into their old quarters, and are doubling up. In some cases we find as many as three or four families in one house, where we had one and two when higher wages prevailed."

## BAY CITY RESIDENT EXPIRES IN PARIS.

RAPHAEL WEILL WAS RECIPIENT OF HONORS FROM FRANCE AND PRISCO.

(BY A. P. NIGHT WIRE.)

SAN FRANCISCO, Dec. 9.—Raphael Weill, one of the leading merchants of San Francisco and honored on several occasions by the French government for services during the war, died in Paris at 5 a.m. today, according to a cablegram received here tonight.

Weill was born in Phalsbourg, Lorraine, eighty-three years ago. He never married. Since 1854 he has been in the dry goods business in San Francisco, where he has also been a leader of the French colony. He founded a league some years ago with the purpose of restoring his native Lorraine to France.

Besides recognition from France, Weill was honored by the city of San Francisco. On his return last year from Paris, where he visited during each year recently, Weill was tendered a public reception and presented by the mayor with a plaque commemorating his devotion as a citizen of San Francisco. Weill's fame as a patriot and Epicurean extended from Paris to San Francisco. Many relatives survive him, including four brothers in France and a nephew, Michel, in San Francisco.

Raphael Weill and his four brothers were all members of the Legion of Honor of France.

## NO HIGH COST OF LABOR IN HAITI.

(BY CABLE AND ASSOCIATED PRESS.)

PORT AU PRINCE, Dec. 9.—There is no high labor market in Haiti. The man working by the day gets one gourd, which is 20 cents, and sometimes a gourd and a half.

Cooks are to be had without advertising. Most of them earn \$1.50 a week, and in addition get 8 cents a day on which to feed themselves and their stock. They do not have to include car fare in the weekly wage down here.

At some points in the interior, wages for cooks are even lower. Many of them live in mahogany houses, at that.

Haiti's population is estimated around 2,500,000. Ninety-seven per cent of these people are classed as illiterate, which may account for the size of the pay envelope.

## WOOL AUCTIONS IN LONDON ARE SLOW.

(BY CABLE AND ASSOCIATED PRESS.)

LONDON, Dec. 9.—At the wool auction sales today 10,354 bales were offered. There was a slightly better demand for medium grades. Cross-breds showed a 5 per cent decline. The market otherwise was weak. Only one-quarter of the offerings was sold.

## ONE OF TERROR SQUAD OF ASSASSINS CAUGHT.

(BY CABLE AND ASSOCIATED PRESS.)

BOLOGNA (Italy) Dec. 9.—Police officials at Potenza have arrested a man who boasts that he is a member of a "terror squad" which is composed of twenty-four men who have plotted the assassination of public authorities.

KILL CORNS AND WEAR  
SMALLER SHOES

Home Method Discovered by Chemist  
Ends Painful Growths

Many persons are unable to wear  
the shoes that actually fit them be-  
cause they are troubled with corns or  
callouses.

Extra size footwear is not neces-  
sary, however, after these painful  
growths have been painted with  
Cactus Corn Compound. This prepa-  
ration stops the pain of corns at once  
and causes them to dry up and soon  
fall off.

This method of removing corns can  
be employed at home by anyone and  
is perfectly safe, while cutting is  
very dangerous. A small bottle of  
Cactus Corn Compound, costing only  
a few cents, will remove dozens of  
corns. Your druggist has it and will  
refund your money if it does not  
please you.—[Advertisement]

TARIFF TASK  
FOR CONGRESS.

Early Revision Improbable,  
Says Longworth.

Solution of Problems Hedged  
With Difficulties.

Favorable Trade Balance Seen  
as Liability.

BY A. P. NICHOLS WASH.

NEW YORK, Dec. 9.—[Tariff revision  
to restore protection for Ameri-  
can industries forms a task hedged  
about with so many problems that  
no early action by Congress is to  
be expected. Representative Long-  
worth, member of the House Ways  
and Means Committee, declared to-  
night in addressing the Academy of  
Political Sciences.

"I sincerely hope that the  
"but I am bound to confess that, so  
far as I can now see, the prospect is  
decidedly heavy."

Chief among the problems to be  
confronted in such a revision, the  
speaker placed determination of the  
attitude of the United States toward  
assisting in the economic rehabili-  
tation of the powers associated with  
it in the World War. Such aid  
should be extended, he said, but  
never at the sacrifice of American  
industrial independence through  
throwing down the tariff bars to  
foreign products.

HITS WILSON PROPOSALS.  
Citing President Wilson's proposals  
to Congress a year ago, Mr. Long-  
worth said the enactment into law  
of such a doctrine would bring dis-  
aster to American business and in-  
dustry. It was true, he said, that the  
war had changed conditions and that  
a favorable trade balance was now  
perhaps a liability rather than an  
asset since it had reached an aggre-  
gate of nearly \$9,000,000,000 for the  
years 1918, 1919 and 1920, up to Sep-  
tember.

FAVORS TRADE AGREEMENTS.  
Mr. Longworth added that it was  
doubtful whether throwing open  
American markets to Great Britain,  
France, Italy and Belgium would ac-  
complish its purpose. These nations,  
he said, had higher labor costs com-  
pared to some other foreign powers,  
and the latter probably would cap-  
ture American markets if barriers  
were removed.

"If it should be found wise to ex-  
tend preferences to the debtor na-  
tions," Mr. Longworth said, "so far  
as tariffs are concerned, it seems to  
me that there is but one practical  
way to bring it about and that is  
through separate, reciprocal trade  
agreements."

cluded Ambassador Jusserand of  
France; Irving T. Bush, Frank A.  
Vanderlip and Thomas W. Lamont.

Mayor Accepts  
Offer Made of  
Landing Field.

Mayor Snyder in a letter sent yes-  
terday, thanked him for the offer of  
a municipal airplane landing site at  
the old Chapin airport, a permanent  
air port at this time, and pend-  
ing such action I wish to accept the  
privilege offered of forming us  
municipal landing field.

Local men interested in the de-  
velopment of aircraft, have long  
worked for the establishment of a  
city operated and controlled field  
here. It is believed that if the city  
establishes a field, the Federal gov-  
ernment will formally select the city  
as a Pacific Coast terminus for  
transcontinental air mail service.

The air route from New York to  
Los Angeles is safer and shorter  
than that over the mountains of the  
north, and it is believed that the  
moment Los Angeles can state that  
it controls a field, which is fully  
equipped with hangars, necessary  
filling stations, shops, etc., tremen-  
dous impetus will be given to the  
development of the city as a trans-  
continental air terminus.

The Christmas seal sale of the Los

full returns are in.

Miss Sidney M. Maguire, executive  
secretary of the association, who has  
charge of the correspondence and of  
the seal sale, under Mrs. J. M. Dan-  
ziger, chairman, said last night that  
she believes that thousands of let-  
ters containing money for Christmas  
seals will be received after the holi-  
days.

Judging by the 20,000 responses  
already received," said Miss  
Maguire, "there will be \$1 in at least

are busy now with their Christmas  
shopping, planning and giving. They  
will use the seal and pay for it them  
by mailing us a dollar when they get

Mrs. Danziger added that a whirl-

house-to-house canvass by the fire-  
men and the Woodcraft League boys.  
The Salvation Army lassies sold  
thousands of seals in the downtown  
district yesterday, while volunteer  
workers in stores, shops and hotels  
made it a field day.

FATHER FEARFUL FOR  
SON IN TURK PRISON.

RELIEF HOSPITAL WORKER IN  
NEAR EAST GETS CABLE  
TO FAMILY HERE.

Anxiety for the safety of Dr.  
George T. Pomeroy, a Los Angeles  
physician who was reported in cable  
dispatches yesterday to be a captive  
of the Turkish Nationalists in Sam-  
sun, Turkey, was expressed yester-  
day by members of his family here.

Dr. Pomeroy is one of a party of  
eleven women and seven men Ameri-  
can relief workers in the Far East,  
all of whom, according to Col. James  
H. Coombs, director of relief work  
in Constantinople, are being held by  
the Turks. Amy A. Burt of Venice  
is also a member of the relief party.

The last word received by Dr.  
Pomeroy's family was a brief cable-  
gram which stated that he was safe  
and well.

"I received the cablegram a few  
days ago," said Rev. Fletcher  
Pomeroy, of 1821 Grand View ave-  
nue, father of Dr. Pomeroy. "The  
cause of it we felt that my son was  
probably being held by the Turks. I  
cannot understand why he should be  
taken captive, for the hospital in  
Samsum, of which Dr. Pomeroy is the  
head, offers relief not only to  
Armenians, but to Turks and other  
nationalities also."

Dr. Pomeroy left Los Angeles in  
October of last year for the Near  
East. A month ago he sent a letter  
to his family in which he stated that  
he had completed arrangements  
which would permit him to remain  
in Samsum several months longer  
than the allotted year which he con-  
tracted to serve in relief work. This  
was the last letter received from  
him.

Samsum is the chief town of  
Asiatic Turkey and situated on the  
south coast of the Black Sea and  
about 280 miles east of Constanti-  
nople. It has a population of 15,000,  
two-thirds of whom are Christians,  
and is to be reached by sea only  
from Constantinople. Its chief prod-  
uct is Turkish tobacco of a variety  
known as "Samsum." The history of  
the city dates back to the first cen-  
tury, when it was on a great trade  
route from Central Asia.

Resident his father, and mother  
Rev. and Mrs. Fletcher Pomeroy.  
Dr. Pomeroy has three brothers in  
Purbanak, Charles, Fletcher W. and  
Edward Pomeroy.

The Christmas seal sale of the Los  
Angeles Tuberculosis Association of-  
ficially ends tonight, but it will be  
the middle of January before the  
full returns are in.

Miss Sidney M. Maguire, executive  
secretary of the association, who has  
charge of the correspondence and of  
the seal sale, under Mrs. J. M. Dan-  
ziger, chairman, said last night that  
she believes that thousands of let-  
ters containing money for Christmas  
seals will be received after the holi-  
days.

Judging by the 20,000 responses  
already received," said Miss  
Maguire, "there will be \$1 in at least  
every other letter we receive. People  
are busy now with their Christmas  
shopping, planning and giving. They  
will use the seal and pay for it them  
by mailing us a dollar when they get  
time."

FATHER FEARFUL FOR  
SON IN TURK PRISON.

RELIEF HOSPITAL WORKER IN  
NEAR EAST GETS CABLE  
TO FAMILY HERE.

Anxiety for the safety of Dr.  
George T. Pomeroy, a Los Angeles  
physician who was reported in cable  
dispatches yesterday to be a captive  
of the Turkish Nationalists in Sam-  
sun, Turkey, was expressed yester-  
day by members of his family here.

Dr. Pomeroy is one of a party of  
eleven women and seven men Ameri-  
can relief workers in the Far East,  
all of whom, according to Col. James  
H. Coombs, director of relief work  
in Constantinople, are being held by  
the Turks. Amy A. Burt of Venice  
is also a member of the relief party.

The last word received by Dr.  
Pomeroy's family was a brief cable-  
gram which stated that he was safe  
and well.

"I received the cablegram a few  
days ago," said Rev. Fletcher  
Pomeroy, of 1821 Grand View ave-  
nue, father of Dr. Pomeroy. "The  
cause of it we felt that my son was  
probably being held by the Turks. I  
cannot understand why he should be  
taken captive, for the hospital in  
Samsum, of which Dr. Pomeroy is the  
head, offers relief not only to  
Armenians, but to Turks and other  
nationalities also."

Dr. Pomeroy left Los Angeles in  
October of last year for the Near  
East. A month ago he sent a letter  
to his family in which he stated that  
he had completed arrangements  
which would permit him to remain  
in Samsum several months longer  
than the allotted year which he con-  
tracted to serve in relief work. This  
was the last letter received from  
him.

Samsum is the chief town of  
Asiatic Turkey and situated on the  
south coast of the Black Sea and  
about 280 miles east of Constanti-  
nople. It has a population of 15,000,  
two-thirds of whom are Christians,  
and is to be reached by sea only  
from Constantinople. Its chief prod-  
uct is Turkish tobacco of a variety  
known as "Samsum." The history of  
the city dates back to the first cen-  
tury, when it was on a great trade  
route from Central Asia.

Resident his father, and mother  
Rev. and Mrs. Fletcher Pomeroy.  
Dr. Pomeroy has three brothers in  
Purbanak, Charles, Fletcher W. and  
Edward Pomeroy.

## HARVEY PLAYS ROLE OF "BRICK"

(Continued from First Page.)

as one of Coach Jack Wilce's chief assistants.

According to a report given out here by the local Ohio State committee "Click" will perform between halves of the "big game" on New Year's Day, giving exhibitions of punting and kicking, and also demonstrating the peerless side step with which he fairly rooted away from tacklers last year and in previous years.

That Ohio State may not be completely outdone on the cheering proposition by California's host of rosters, John Creps, the head cheerleader of the Buckeyes, is to accompany the team to Pasadena. He will train the rosters' club in the latest yell and songs that are used at home.

Howard J. Lucas, president of the Ohio State University, has received a telegram from the university authorities that over 250 followers of the team will take the long jaunt. The band leader will also go along, and will take with him the scarlet and gray capes which are to be worn by the band to be furnished for the Ohio season.

A section of seats has been allotted to former students of the "Big Ten" universities and applications for reservations in this section are being received at the following addresses for the various universities:

Michigan—P. S. Nonberger, 627 Citizens' National Bank Building; Illinois—Nourenberg and Johnson, 762 Pacific Electric Building; Iowa—L. Swisher, 703 Title Insurance Building; Minnesota—J. R. Isfeld, Hillman Building; Wisconsin—Willie Durst, 212 Ribbman Building; Chicago—Dr. Speck, 800 Auditorium Building; Purdue—Northwestern, Indiana and Ohio State—L. S. Collins, 114 Security Building.

A dinner and reception will be given in honor of the Ohio State players on Christmas evening at the Hotel Huntington. It was decided at a meeting of the alumni last Wednesday night. The team arrives here, according to present schedule on the 24th, giving it eight days for practice instead of the ten which would have been possible had the first program been adhered to.

The coaching staff evidently believes that practice at Denver and Palo Alto en route will be better than ten days' acclimation here in the south. Eastern teams have figured that way before—much to their sorrow.

## BANQUET TENDERED TO BALL NOTABLES.

(EXCLUSIVE DISPATCH)  
SANTA ANA, Dec. 9.—Cactus (Gavy) Cravath, new manager of the Salt Lake team, and Ernie Johnson, recently reported signed with Comiskey's Chicago White Sox, were honored guests here tonight at a banquet tendered by thirty-five of their friends here. J. C. Burk, former Assemblyman, was toastmaster and a number of baseball notables, including President William Lane of the Salt Lake Club and Bob and Irish Meusel, were expected to be present.

## HOWARD EHMKE MAY PITCH FOR ALL-STAR.

PURDON'S BALL TEAM WILL AGAIN PLAY FORMIDABLE L. A. WHITE SOX.

Of Walter "Duster" Mails is bent on chasing up the L. A. White Sox, and clean them the way he did Brooklyn in the world's series.

Joe Pirrone, who manages the Major League All Stars secured Mails to hurl for the majors in Sunday's game against the terrible Sox.

Pirrone is now dickering to get Howard Ehmke of the Detroit Tigers to hurl tomorrow's game.

The whole team of the majors will represent some of the greatest diamond stars in the game today. A few days ago, Pirrone, after considerable hustling, signed Max Carey of the Pittsburgh National League club to play in the outfield.

Coach Cox rises up to announce that the Hollywood basketball prospects are looking brighter every day. The latest victories of the Hillmen squads were at the expense of Harvard Military Academy; the Hollywood first team winning 28 to 18, and the 128-pounders scoring ahead with a 19-to-2 score. Large quantities of substitutes were used in both games.

## CRACK GOLF PLAYER ARRIVES IN PASADENA.

The latest arrival in the stardom of prominent eastern golfers is none other than the famous Leo Diegel, who is to associate himself at the new Pasadena golf course with George C. Neil and Eddie Loos, also of Chicago.

Leo Diegel is the 21-year-old lad from the Lakeshore Country Club at Chicago, who at the last national open at Toledo tied for second place with Jack Hutchinson, Harry Vardon and Jack Burke. In the western open, playing at the Mayfield Country Club, Cleveland, he was again in second place. At the close of the coming season here Leo Diegel goes to the Lockport Club of Detroit, Mich. After a rest of a few days Leo will be seen in action almost daily and it will be a rare treat for the golfer to see his style of playing.

## Holland is Best in Hollywood Country Run.

Coach Fred Johnson of Hollywood High School staged a cross-country run yesterday in which twenty-nine distance hounds competed. The endurance grind was for a distance of one and nine-tenths miles, and was won by a chap named Holland.

Johnson failed to get his watch working in time to catch the first and second men, but announced that the third man's time was 10m. 36s.

The affair was put on primarily to condition the Foothill runners for the annual cross-country run of the City League High Schools, which is to be held one week from today at Hollywood.

Los Angeles High was the host last year, and the winner was Lincoln High School. According to the rules this year each school is allowed to certify eight men, but can only run six. A banner will go to the winning team, and ribbons to the first ten men to place. The team with the lowest number of points wins the race, each runner who doesn't finish being awarded a

total of 49 points, which pulls down his team's low-point score. Here is the way the Hollywood runners finished yesterday: Holland, Testa, Masellen, Perdue, Von Herms, Barnes, Carter, Lockwood, Wood, manese, Kawamura, Marshall, Emerson, Hindman, Sanchez, Gallus, et, Purver, Hutchinson, Harding, Blanchard, Raymond.

## ATHLETIC ACCOUNT DISPLAYS DEFICIT.

(BY A. P. NIGHT WIRE.)  
PRINCETON (N. J.) Dec. 9.—Princeton's athletic year ending July 31, showed a deficit of \$2161.53, according to the financial statement issued tonight by the athletic association. This was due to unusual expenses incurred last year, such as the replacement of the baseball stands which were destroyed by fire and the reconstruction of the cage.

Baseball, basketball and football were the only sports to show a profit, which totaled nearly \$4,000. Football showed a net revenue of more than \$71,000.

Rowing was Princeton's most expensive sport, costing the association \$3241. General and administrative expenses came to a little over \$52,000 for the year.

## GOLDWYN ADDS THREE TO HIS LIST OF EMINENTS

By Grace Kingsley.

The famous Cheshire smile was a rude frown compared to the beam-  
ing look which Samuel Goldwyn,  
president of the Goldwyn Pictures  
Corporation, wore yesterday. Presid-  
ing at the luncheon to entertain the  
newspaper folk, he gave utterance to  
the fact that Goldwyn was never  
more prosperous and made some in-  
teresting announcements regarding  
the future plans of his organization.

The corporation having insisted  
on his returning to the presidency  
of the company naturally adds to  
Mr. Goldwyn's natural enthusi-  
asm. It was with lively satisfaction  
that he announced that his policy,  
started over two years ago, of mak-  
ing a pioneer movement at the time  
of emphasizing the story and  
the director rather than the stars, is  
to be carried out in future to even  
greater extent than in the past.

In pursuit of this plan, he an-  
nounced that three new authors have  
been added to the Goldwyn roster  
and will shortly come West, viz., Rita  
Weisman, Alice Duer Miller and  
Katherine Newlin Burk.

Miss Weisman is author of "Cur-  
lains," "Madame Peacock" and other  
stories, and Miss Miller's play, "Come  
Out of the Kitchen," long ago made  
her popular.

Basel King and Mary Roberts  
Hughart will be here shortly, and  
Rupert Hughes and Gertrude Ath-  
erton are now present.

All these will personally supervise  
the making of their pictures. The  
success of Basil King's "Earthbound"  
and of Guyver's "Morrie's" "The  
Penalty" having proved, said Mr.  
Goldwyn, that his method is a suc-  
cess.

A number of Goldwyn productions  
are to be made abroad during the  
coming year, said Mr. Goldwyn, and  
these may include, he hinted, at  
least a few costume plays of the  
romantic type. He believes that this  
form of picture entertained will  
be in for a vogue very soon. Some  
of the foreign Goldwyn productions  
will be made with American actors,  
and some with foreign actors, he  
declared.

That there will be no combine of  
big picture companies, but that  
some of the small and more or less  
slightly irresponsible companies  
will be put out of business by the  
present money stringency, and that  
through this process pictures will  
become of better quality, were  
prophecies of Mr. Goldwyn.

It is in fact the theater house  
the spoken drama that he believes  
will suffer in the near future, inas-  
much as people will not pay the  
high prices of admission required  
to this form of entertainment. Also  
the admission price to picture  
theaters will not be raised in all  
probability.

Mr. Goldwyn will remain in the  
West during most of the winter  
overseeing production.

Mabel Normand is still with the  
Goldwyn company, despite the fact  
to the contrary, and it is expected  
she will return from the East with-  
in a few weeks. She is now in  
excellent health, says Mr. Goldwyn,  
but means to make the most of her  
recovery.

Eddie Ferguson Entertains.

Ever though it does seem like a  
perfectly ridiculous thing, in the  
case of so famous and so-to-speak  
beauty-brake beauty as Eddie Fer-  
guson, still that young lady had to  
go through the ordeal of having  
made yesterday at the Lasky  
studio. Following that performance,  
however, she let us draw up  
our chairs on the set while she  
talked to us with just the sort of  
enthralling charm you might imag-  
ine her possessing.

It wasn't herself and her plans  
she cared so much to talk about  
either, but about her recent restful  
and health-giving trip through the  
Orient.

It's China which particularly in-  
terested her, especially as regards  
the progressive work of the young-  
er Chinese. It seems she has been  
entertained quite lavishly in the  
homes of some of the ladies of the  
Chinese 400 that they told her  
things like their favorite perfumes  
and how they made their eyebrows  
look that way. Miss Ferguson says  
she's long forward to going again,  
as soon as ever she can.

In the meantime, though, like  
California very much, and finds it  
changed since she was here with  
"Outcast" some seven years ago.  
Still she's going to make only one  
picture here, "Sacred and Profane  
Love," because the New York cast  
for her doggone wedding.

"My husband," she says, "is Thomas  
B. Clark, Jr., you know, is in New  
York, and so I have to go home to  
take care of him," laughed, Miss  
Ferguson.

Chaplin Bulletin.

Having come home after several  
months' absence, Charlie Chaplin  
said yesterday, he meant to start  
work soon after Christmas on a new  
picture—the first of the new series  
remaining ones he has left to make  
for First National. He doesn't know  
just what his next picture is to be  
about, but expects to find out with-  
in a few days, as he's going to work  
on the story at once.

"Happy? Of course I'm happy!"  
said the comedian, in answer to  
the statement that he looked rather  
joyous. "Why shouldn't I be?" and  
he grinned that irresistibly infec-  
tious little grin of his. But he  
wouldn't say another word except  
to admit that he was fatter by six  
pounds than when he left.

Mr. Chaplin will work at his own  
studio, and it is quite likely that  
Eyd Chanin will also work there on  
returning from his trip of recupera-  
tion up in the mountains.

Moreno Vouches For It.

Although Antonio Moreno says he  
knows that fans aren't going to be-  
lieve they were when they see the  
picture, still it's the truth that real  
picture and the real picture are  
Florence Ariz, were used in mak-  
ing his current Vitaphone feature,  
"Prison of the Living Dead," so far  
their faith in mankind as to permit  
the prison doors to be opened and  
let the real thing rush forth in the  
breaking scenes. Naturally their  
faith was backed up with guns in  
the hands of guards.

Mr. Moreno isn't going to Mexico,  
after all. It seems it's hard to find  
a government on the job long enough  
to issue passports, or something of  
that sort, and beside the exhibitors  
down there want Mr. Moreno the  
first of the year, which is the exact  
time when he expects to be starting  
work on his second special feature  
for Vitaphone.

## PROGRAM OF MODERNS.

## DONAHUE'S BRILLIANCE AND CLEVERNESS TRIUMPH.

By Jeanne Rodman.

Leslie Donahue, who has not been  
heard here in more than a year,  
played last evening at Trinity Audi-  
torium, a program which was made  
up entirely of moderns—if we may  
include our MacDowell as such. The  
usual group of classicists, Romantic-  
ists and moderns was changed. Don-  
ahue is of the younger generation,  
and finds himself at home in the ex-  
pression of modern musical ideas.

Since his last performance here,  
the young pianist has grown both in  
point and understanding. He has  
developed a fine restraint beside a  
and a nice discrimination in the  
choice of compositions. He plays the  
moderation not with a common inter-  
pretation for each, but with a dis-  
tinct favor of individuality.

His MacDowell "Keltic" Sonata,  
which he has made, through frequent  
playing, intimately his own, is a  
ferent and heart-whole perfor-  
mance, with a strong Keltic inflection.  
The MacDowell movement gave us  
an impression in the tremendous  
powerful tone—albeit without forc-  
ing—which Donahue indubitably  
His staircase is full and  
step, and his octaves passages plas-  
tic.

The Debussy group was well  
liked by the audience, which de-  
manded an encore, this being Bor-  
niovich's Etude No. 3. The "Re-  
flections in the Water" was brilli-  
ant, as was the "Goldfish."

There were poetry and pathos in  
the "Plus Lente" waltz, and  
dedicated to him, was very effective  
with its commonplace in little  
dressed up in fascinating rhythm  
and variations.

Two numbers of Balakirev con-  
cluded the program—"Au Jardin,"  
and "Tulsi." The Russian, of  
course, is familiar to us as a radical  
but this last work is the newest of  
the new. In interval and in ultra-  
stylized rhythms, it is rich and color-  
ful. Its requirements are appalling  
and Donahue won his technical hon-  
ors of the evening in this number.

THIRD POPULAR CONCERT  
BY PHILHARMONIC.  
With Marion Woodley, contralto,  
as soloist, and a popular program  
of unusual interest and variety, the  
third popular concert of the Philhar-  
monic Orchestra will be given  
Sunday afternoon at the Auditorium.

Conductor Rothwell has shown by  
his careful selection of popular  
programs, a true insight into the  
musical demands of the Sunday  
patronage.

Miss Woodley is well known in  
musical circles. She has only recently  
returned from completing her  
studies in the East, and in addition  
to her engagement as soloist with  
the orchestra, is to soon give a re-  
cital in Los Angeles at Trinity Audi-  
torium. She will sing "Know Thy  
Land" and the blim-  
bi's song from "Gloconda."

Technikovsky's andante from  
Fifth Symphony, the march from  
Prince Igor (Borodin), introduction  
to Act III from "Priglasenie i Iskani-  
e" (Lohengrin) and Weber's  
overture to "Der Freischutz" make  
up the orchestral program.

SOMETHING SECRETIVE  
IN THIS GEM LOSS.

Some time during the past seven  
weeks someone in some downtown  
hotel lost some jewelry valued at  
something like \$10,000. This is the  
information filed with the police yes-  
terday regarding a mysterious theft.  
The case is being investigated by  
J. E. Armstrong, a private detective.  
The lost is supposed to include  
diamond links, stickpins, two Swiss  
watches and a pair of valuable  
bangles.

Buster in Six-Reeler.

Buster Keaton, who is now a top-  
notch comedian in the two-reeler,  
is to come to the fore as the shining  
hero of a six-reel feature production  
next week at Tully's Theater.

Theda to Leave Stage.

Theda Bara expects to leave the  
stage according to eastern reports.  
It seems that Miss Bara has not been  
satisfied as she had hoped with  
her Chicago production of "The Blue  
Flame," and has announced she  
means to go into retirement.

Sounds Reasonable.

"How will you spend Christmas?"  
someone asked William D. Taylor  
yesterday.

"You mean what will I spend  
Christmas? I presume," answered  
the director. And he isn't Scotch  
either.

TRANSFER JOHNSTON CASE.

The case of Clyde C. Johnston,  
former police court clerk, accused  
of defrauding the city out of ap-  
proximately \$28,000, was yesterday  
transferred from Judge Willis's  
court to Presiding Judge Jackson's  
court for reassignment.

Will Rogers, Goldwyn's cowboy  
with and star, caused a commotion  
in the fashionable section of Beverly  
Hills the other day by driving  
his new touring car, an expensive  
limousine with a horse attached by  
a guide rope. The limousine belonged  
to Mrs. Rogers, Deborah de Hill. Ro-  
gers had to deliver the limousine to  
his wife and make a studio appoint-  
ment at the same time, which was  
the reason for the novel procession.

Table Over Title.

It seems that exhibitors and the  
Griffith forces have tangled legally  
over the use of the phrase "way down  
East" in the billing of pictures. As a  
result, two exhibitors of Union Hill,  
N. J., were summoned before a mag-  
istrate to explain. Their theater  
were running another production and  
the billboards, it is alleged, displayed  
signs throughout the town referring  
to the picture as a "story of way  
down East," playing up the "Way  
Down East" part in large letters.

# The Return To Normal

THERE IS MUCH TALK just now of  
"the return to normal conditions." On a  
close analysis there seems to be a great  
diversity of opinion as to just what  
"normal conditions" means or rather  
what they are as applied in terms of  
the present—but whatever else it may  
mean—a return to a normal condition  
means stabilized business and beyond  
question lower interest rates for prime  
securities. The present yield is higher  
than the investor will be able to se-  
cure at a later period.

We are offering three lines of secured  
securities to meet the needs of in-  
vestors.

**7% YIELD—Improvement Bonds**  
Issued by incorporated cities—free  
from California income tax—free from  
Federal Income Tax—

**7 1/2% YIELD—Mortgage Trust Cer-**

on selected new dwellings—

**8% YIELD—Short term Certificates**  
Involving twenty-four months—inter-  
est payable quarterly, covering condi-  
tional sales contracts representing merchan-  
dise sold, interest and principal guaran-  
teed by a strong company.

These are all California securities—the  
property is here where you can see it  
and ascertain the value for yourself.

# OUR MOTTO QUALITY PRICE SERVICE

We certainly must be taking much for  
granted if we think that we can make  
folks travel nine miles just for the  
sake of seeing our store.

But wait—we aren't in business for our  
health. We have another motive.

We investigated the Gift Boxes of  
Fruits and Nuts being offered by Los  
Angeles' most prominent stores—then  
we decided to advertise in Los Angeles  
papers.

We just couldn't resist it. Angelenos  
who had seen our Fruit and Nut boxes,  
and who had learned how we handled  
shipments, preparing all charges, kept  
urging us to take advantage of our for-  
tunate position.

And here we are. Our store is at 250  
East Colorado Street, Pasadena. Our  
name is The Model Grocery Company.  
We have been in business for 25 years.  
We occupy a whole building—away  
from traffic jams and bewildered hurri-  
scurry Christmas crowds—yet only a  
half hour's ride from Los Angeles.

We certainly must have something ex-  
ceptional awaiting you if we think it  
worthy of your traveling nine miles.

Thanks for your attention.

## PLANS PORT BOND ISSUE.

Harbor Board Soon Will Ask for Ten Millions for Improvement Work.

The Board of Harbor Commissioners will soon ask the City Council to approve a proposal for a \$10,000,000 issue of harbor improvement bonds, to be submitted at the May primaries or the June city election, according to a statement made yesterday by President Gordon of the harbor board.

That the board would recommend another bond issue in addition to the \$4,500,000 of harbor bonds voted last year was forecast in the annual report of the commission, issued last month, by the statement of Harbor Engineer Griffin that the city should spend between \$12,000,000 and \$20,000,000 during the next few years to meet competition with other ports.

Of the \$4,500,000 bond issue of 1919, practically all has been spent, contracted for or encumbered, the principal item of \$1,100,000 of uncollected bonds, recently set aside to put through Terminal Island improvements, including the building of 3200 feet of municipal docks, and the connecting of them with the city by means of a paved highway and a steel bridge across Long Beach Channel.

Projects completed with the \$2,400,000 already spent include dredging in the inner harbor, building of railroad tracks to the Catalina Island wharf, building of wharves and tracks for the Vegetable Oil Products plant, building of additional

to the wholesale fish wharves, dredging of the entrance to fish harbor, extensions of railroad yards and the purchase of additional cargo handling equipment.

Projects which have been postponed until the voting of another bond issue, such as the \$10,000,000 one suggested yesterday by President Gordon, include the building of docks for the Pacific Mail Steamship Company, the extension of the Harbor Boulevard to the outer harbor, the installing of pier A railroad yards, the building of additional wharf space for the Standard Oil Company and the construction of shed No. 4 at pier A.

## VENICE QUIZ LAGGING.

No Witnesses Called to Testify About Beach Crime Status.

No far no witnesses have been subpoenaed to appear before the county grand jury in relation to the investigation regarding police conditions at Venice, other than in a traffic case, it was stated yesterday by Dep. Dist-Atty. Stafford.

Mr. Stafford yesterday interviewed various persons supposed to have knowledge of conditions at Venice, and evidence was gathered for an inquiry. It was stated the investigation may be begun today.

## BUSINESS HURT BY CAR ROUTES.

Co-operative Association's Secretary Heard.

Tells Utilities Board Time Here for Redress.

Charges Discrimination Not Fair to Merchants.

"Merchants who have millions of dollars invested along Broadway in stocks of merchandise and in long-term leases are being discriminated against and their business is crippled by lack of proper transportation into the district," said George M. Babcock, managing director and secretary of the Business Men's Co-operative Association yesterday afternoon in speaking at a hearing given by the Board of Public Utilities at the City Hall.

"The organization has consistently urged that Western avenue and Halilotepe cars be routed north on Broadway instead of proceeding East on Seventh street as at present," Mr. Babcock continued. The association desires to stabilize business along Broadway, and we need more street cars to bring people directly into the district instead of forcing them, as at present, to transfer at Seventh street in order to proceed north. No district should be discriminated against by the city, and I do not believe that the company desires to discriminate. "The Los Angeles Railway," said General Manager George J. Kuhrt, "desires only to serve the entire public and if the board believes that we should turn cars from the Western avenue and Wilshire residential districts directly north on Broadway, we shall gladly do it." President Wishing of the board appointed Mr. Babcock, Mr. Kuhrt and Chief Engineer Osborne a committee of three to endeavor to work out a plan which will meet the objections of the Broadway business men to the present routing, and Mr. Wishing said that he was confident that the problem could be solved with satisfaction to all.

## PARK BONDS BEATEN.

Harbor District People Defeat Proposed Issue Decisively.

Residents of the harbor district yesterday by a vote of 785 for and 337 against defeated a proposal to issue \$350,000 bonds to condemn sites for parks and playgrounds. The vote was the culmination of an unusually spirited campaign.

The bonds were opposed by the Taxpayers' League and supported by a committee named by the San Pedro Chamber of Commerce. Sites to have been acquired include nine acres at Point Firmin, the property of George H. Beck and W. G. Kerckhoff, and forty-seven acres in Gaffey Canyon, owned by John T. Gaffey, with an adjoining playground site where the recent Cabelle Day pageant was staged.
